

Detection Technologies Announces New Client Additions and Expansion of the U.S. Business Development Team

JANUARY 11, 2010

Calgary, Alberta and Forest, Virginia

Detection Technologies announced today the addition of several new clients during the 4th Quarter of 2009, as well as the addition of two experienced business development professionals.

New clients added during the 4th Quarter of 2009 include:

- **Arrow Energy**, a Brisbane, Australia based energy company and an emerging global leader in coal seam gas development. Arrow has a business presence in Australia, China, India, Vietnam, and Indonesia.
- **Eagle Rock Energy Partners**, a growth oriented energy company engaged in midstream, upstream, and minerals. Eagle Rock is based in Houston, Texas.
- **Eni Petroleum**, an integrated energy company committed to growth through the exploration, production, transport, transformation and marketing of oil and natural gas. Eni operates in 70 countries with 78,880 employees.
- **Keyera Energy**, is a publicly traded income fund which owns one of the largest independent natural gas and natural gas liquids midstream businesses in western Canada.
- **Rosetta Resources**, an independent oil and gas company engaged in acquisition, exploration, development and production of natural gas properties in North America. Rosetta is based in Houston, Texas.
- **SemCAMS**, an energy company that owns and operates gas processing plants located in the heart of the Western Canadian Sedimentary Basin, the home of 80 percent of Canada's sour natural gas production.
- **Whitecap Resources**, a private energy company based in Calgary, Alberta.

Detection has also expanded its U.S. business development team with two experienced sales and customer relations professionals:

- **Paul K. Ludwick** has joined Detection as Director of Business Development – Western US, based in Denver, Colorado. Paul has 27 years experience in the natural gas industry, primarily with Hanover Compression and Exterran Partners. He earned a BBA in Petroleum Land Management from The University of Texas at Austin in 1983.

- **Alton (Ray) Richey** has joined Detection as Director of Business Development – Central US, based in Houston, Texas. Ray has 27 years of professional technical sales experience in the Petrochemical, Refining, and HVAC industries. He earned a BS in Industrial Distribution from Texas A&M University in 1983.

“2010 will be another exciting year for us with continued double digit growth expected” said Cavan Carlton, Detection’s Senior Vice President & General Manager, U.S. & International. “We are continuing to develop outstanding relationships with leading energy companies in Canada, the United States, and Australia who are seeing first-hand the value that Analysis can bring to their compressor operations.”

Detection Technologies is the developer of Analysis, the world’s leading compressor optimization and fleet management program. For more information, please call 1.800.780.9798 or visit their corporate website at www.detection.com.
